Rahul Mali

Full Stack Developer | Cloud & DevOps Enthusiast

Solapur, Maharashtra, India • malir3557@gmail.com • github.com/Rahul-mali07 • linkedin.com/in/rahul-mali-1abb8431a • rahul-mali07.github.io/rahul-portfolio

PROFESSIONAL SUMMARY

Computer Science Engineering student and full stack developer with hands-on experience building responsive web applications using React, Next.js, Node.js, Python, and SQL/NoSQL databases. Comfortable working across frontend interfaces, backend logic, and deployment workflows, with a growing foundation in cloud computing and DevOps. Focused on turning ideas into clean, practical, user-centered software.

EDUCATION

Bachelor of Technology - Computer Science Engineering — Solapur, India

NB Navale Sinhgad College of Engineering

Focus areas: Full Stack Development, Data Structures, Object-Oriented Programming, Cloud Computing, and DevOps Fundamentals.

TECHNICAL SKILLS

Frontend	HTML, CSS, JavaScript, React.js, Next.js, Bootstrap
Backend	Node.js, Python, PHP, Flask, ASP.NET Core
Databases	MongoDB, MySQL, SQL Server
Tools	Git, GitHub, VS Code, Vercel
Concepts	OOP, Data Structures, Cloud Computing, DevOps Fundamentals

SELECTED PROJECTS

CertifyPro - Certificate Generation & Verification Platform — Repository

- Built a platform for automatic and bulk certificate generation with verification support.
- Implemented QR code verification, PDF downloads, and email integration for issuing and validating certificates.

Stack: Next.js, React.js, Node.js, MongoDB, Mongoose

Recruitment and Placement Management System — Web Application

- Developed a web-based platform for managing recruitment workflows and placement-related activities.
- Built application flows with Flask and MySQL to manage recruitment and placement records.

Stack: Python, Flask, MySQL, HTML, CSS

Student Leave Approval System — Web Application

- Built a student leave management platform with application submission and administrative approval workflows.
- Implemented data access and request tracking using Entity Framework Core and SQL Server.

Stack: ASP.NET Core, C#, Entity Framework Core, SQL Server

EXPERIENCE

Frontend Development Intern — 1 Month

CodeAlpha

- Completed a frontend development internship focused on building web interfaces.
- Applied frontend development concepts to practical interface implementation.

ADDITIONAL

- Designed and deployed a responsive developer portfolio using HTML, CSS, and JavaScript on GitHub Pages and Vercel.
- Continuously building knowledge in full stack development, cloud computing, and DevOps practices through hands-on projects.
